The Norman Falcon Award is presented to the author(s) of the best paper published in *Petroleum Geoscience* (or in *First Break* in a related topic) in the calendar year preceding the award.

The **Mintrop Award**

Alexandre Bolève and co-authors
Andre Revil, J. Janod, Jean Luc Mattiuzzo and J.J. Fry

For their paper (Preferential fluid flow pathways in embankment dams imaged by self-potential tomography. *Near Surface Geophysics* 7(5-6), 447-462).

The Ludger Mintrop Award is presented to the author(s) of the best paper published in *Near Surface Geophysics* (or in *First Break* in a related topic) in the calendar year preceding the award.

The **Bonarelli Award**

Laurent Sirgue and co-authors
Olav I. Barkved, Jean-Paul van Gestel, Ole Joran Askim and Jan Henrik Kommedal

For their (Oral paper entitled ‘3D Waveform Inversion on Valhall Wide-azimuth OBC’ presented at the 71st EAGE Annual Conference, Amsterdam, June 2009).

The Guido Bonarelli Award is presented in recognition of the best oral presentation at the EAGE Annual Conference in the calendar year preceding the award.

The **Cagniard Award**

Daniel Barker and Martin Landrø

For their (Poster entitled ‘Controlled source strength variation by changing the firing pressure - A sensitivity study for 4D calibration’, presented at the 71st EAGE Annual Conference, Amsterdam, June 2009).

The Louis Cagniard Award is presented in recognition of the best poster presentation at the EAGE Annual Conference in the calendar year preceding the award.

The **Proposals for EAGE Vienna 2011**

The Awards Committee once again extends its congratulations to all the award recipients and thanks Association members who made recommendations. If you would like to make a proposal for the nominations in Vienna 2011, please visit the EAGE website for more details.

The members of the Awards Committee are: Don Milne (Chairman), Tariq Ali Alkhalifah, Olivier Dubrule, Jo Prigmore, Alan Reid, Aldo Vesnaver, Witold Weil, Ugur Yaramanci, Dirk Orlovsky, Shiyi Zheng, and Endre Törös.

**Job and education initiative launched at EGU Assembly**

EAGE and the European Geosciences Union (EGU) successfully launched a Job & Education Market at the EGU’s General Assembly held in Vienna, Austria from 3-6 May, attended by 10,463 visitors from over 90 countries of whom 27% were students. The new initiative was organized to show EGU members the opportunities that the oil and gas industry has to offer.

The Market was centrally located in the poster area of the exhibition, providing a forum where students and professionals could meet and discuss recruitment opportunities. Besides the exhibition, company presentations were given with the hope of attracting potential employees and students. Amongst the exhibiting companies were Schlumberger/WesternGeco and ExxonMobil.

The EGU annual meeting covers all disciplines of the earth and planetary sciences including geology, geomorphology, geochemistry, geophysics, geobiology, and hazards research as well as planetary and space sciences. This year there were 4431 oral and 9370 poster presentations in 594 sessions making it one of the largest and most significant geoscience events held in Europe.
