**The 5th North African/ Mediterranean Petroleum
and Geosciences Conferences & Exhibition
(Tripoli – Libya)**

On behalf of NOC Libya and the European Association of Geoscientists & Engineers it gives me great pleasure to invite you to participate in the 5th North African/Mediterranean Petroleum and Geosciences Conferences & Exhibition which will be held in the city of Tripoli from 27 till 30 March 2011.

“The Renaissance of North African E&P” the theme of the conference reflects the intensive exploration, Production and development efforts made during the last decade, in which the discovery of new world-class petroleum provinces has taken Libya into the top ten countries.

This conference and exhibition could not have been perfectly timed and placed. Being held as the Oil & Gas Industry is being pressed to find solutions to the energy demand and the location of Libya provides the best possible central location where ideas and expectations of North Africa, Europe, Middle and Far East and America (North, South, East and West) can be freely and fruitfully brought to bear on the challenges ahead.

This is why Libya 2011 is an ideal meeting place for experts and senior executives from national and international companies, as well as research centres and universities, to exchange their ideas and experience.

I am very glad to welcome you to Libya 2011 with our best wishes for a pleasant stay in Tripoli and fruitful and active participation in the conference.

Ali Elsogher M. Saleh
Chairman, International Advisory Committee
General Manager, NOC
