TARGET THE GEOSCIENCE COMMUNITY PER REGION
AND FOCUS ON THE MARKET YOU WANT TO REACH

Regional Targeting
EAGE Regional Newsletters offer companies and institutions worldwide the chance to target a group of geoscientists and engineers in a specific region. Our members are based in various regions worldwide, all dealing with specific geoscientific issues. The newsletters aim is to inform geoscientists about specific regional issues and provide information about EAGE activities in the region. The Regional Newsletters are organized through the regional offices and send together with First Break and are also available online.

REGIONAL FACTS

10 YEAR ANNIVERSARY EAGE MOSCOW OFFICE

2016 marks the 10th anniversary of the EAGE Moscow Office. Over the past 10 years this office has made huge strides in providing support to the Russian & CIS geoscience and engineering communities by publishing newsletters, organizing events and increasing membership in the region.

NEW OPENING LATIN AMERICA OFFICE

In 2016 we not only celebrated the 10 year anniversary of our Middle East and Russia & CIS offices but we also opened the Latin America office in Bogota, Colombia.

The aim of establishing our new office is to better serve the Latin American geoscience and engineering communities and to increase our membership in this important region.
